

North Davis Preparatory Academy Wellness Policy

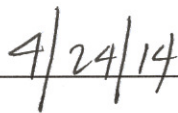

The purpose of this Policy is to ensure the best possible mental and physical health environment for the students of North Davis Preparatory Academy (NDPA).

NDPA's Board recognizes that there is a link between good health and a student's ability to learn effectively and perform at their highest academic potential. The Board also recognizes education and establishment of good eating habits, and a desire for physical activity must begin at a young age. NDPA is committed to providing nutritional education, physical activity and a healthy learning environment for its students and staff.

The Board directs the NDPA Administration to develop an administrative policy and procedures that provide nutrition education and physical education to foster healthy lifestyles, to provide healthy meals that meet all applicable laws and regulations, and to ensure that food used or consumed in the classroom as part of the curriculum follows the NDPA Food and Candy Policy
