

NDPA Junior High Hybrid Plan

Thank you for your patience and flexibility as we navigate these challenges that we are facing for this upcoming school year. In order to make our A/B schedule work and thin out our numbers of students on campus we have come up with the following plan. As you read through the framework of this plan, please remember that we are trying to accomplish four key factors:

1. Continual Sanitation and Cleaning when students are here
2. Personal Health and Hygiene Health & Safety factors
3. Physical Distancing
4. Consistency & Uniformity in School Procedures and Protocols Across ALL students

In order to achieve these factors, our junior high plan will look like this:

****This is a framework, there may be adjustments made but this is the essence of the plan*****

Immersion Students will attend Mon, Wed, & every 1st & 3rd Friday

Non-Immersion Students will attend Tues, Thurs & every 2nd & 4th Friday

For all 5th Fridays- distance/virtual learning days for all

Students will have a block of classes that will be taught in person at school, and they will also have a block of classes that will be taught virtually when students are home on their distance day.

When they are in the building, they take their in-person classes, when they are not on campus, they attend their virtual classes.

The classes that will be in person, have been selected as "live" classes based on student and parent feedback, and based on the subject matter taught. The classes that are virtual will be taught as virtual, however ALL staff will be present in the building and be available for their students throughout the day

The following classes will be live:

Math, Spanish, Sciences, and Electives

The following classes will be virtual or a combination of live/virtual:

CTE, LA, PE, Health, History
