INTRODUCTION

North Davis Preparatory Academy is a K-9 charter school located at 1765 W. Hill Field Road (elementary building) and 1591 W. Hill Field Road (junior high building) in Layton, Utah, 84041.

The school site consists of two buildings. The school had approximately 1,000 students enrolled in the 2019-2020 school year and approximately 139 staff members.

An emergency is the existence of conditions of disaster or extreme peril to the safety of persons or property caused by air pollution, fire, flood or floodwater, storm, epidemic, riot, earthquake, intruder or other causes. An emergency may require a response that is beyond the capability of the services, personnel, equipment and facilities of the school and require the combined efforts of the State or other political subdivisions.

School facilities must be prepared to respond to an emergency or traumatic event in an organized and timely manner so that students and staff can continue to function effectively without additional trauma or the development of additional emergencies. Every school emergency must be managed in a way that ensures the safety of everyone involved. In order to provide a safe and secure teaching and learning environment, personnel must plan for the management of emergency events that cannot be predicted or prevented.

PURPOSE

This plan is adopted pursuant to Utah Code § 53G-4-402(18) and R277-400.

One of the greatest mistakes school personnel make in emergencies is not knowing what to do and when to do it. Planning, training and drills will help prevent mistakes. This plan provides specific steps to take in the most likely emergency situations.

A. Preparation and procedures are necessary for the safety of students and school personnel. Planning, preparation, and training will help school personnel learn the proper course of action in an emergency. This plan will provide step-by-step guidelines to help deal with emergencies.

B. The school’s emergency plan must be well organized, and all staff members must be trained in order to effectively prepare for an emergency.

C. This plan cannot foresee all possible circumstances of an emergency. Staff must be prepared to evaluate all the circumstances and make sound judgments based on the situation.

D. Procedures will be developed to provide for disabled and non-English speaking students and staff.
GENERAL

DIRECTION AND CONTROL

The school’s Board of Directors, through the school’s Principal/Director, is the chief officer for school emergencies. The Principal/Director has the primary responsibility for implementing this plan and any related policies and procedures.

Site personnel will handle less serious emergencies on site with the assistance of local fire and law enforcement agencies as necessary.

In case of a more serious emergency that is beyond the capabilities of school personnel to handle, site personnel will coordinate with local emergency response agencies. This may include having a school staff member act as liaison with responding agencies.

COMMITTEE – PLAN DEVELOPMENT AND MAINTENANCE

A committee will be established to develop and periodically review this plan. The committee may consist of individuals such as the Principal/Director, maintenance personnel/custodian, office staff, teachers, school counselors, and parent volunteers. Local law enforcement, fire/EMS, and other governmental agencies/bodies vested with responsibility for directing and coordinating emergency services on local and state levels will also be invited to participate.

The school’s committee will review this plan at least every three (3) years as well as update information and assignments and suggest any changes that may be necessary to maintain this plan’s usefulness. Part of the review will include reviewing the school’s existing security measures and procedures and recommending any necessary adjustments as funding permits.

FILING OF PLAN AND PROVIDING NOTICE OF PLAN

A copy of this plan will be filed with the Principal/Director.

The school will provide parents and staff of the school written notice of this plan at the beginning of each school year via the school’s website and registration packet.

The school will also annually provide parents, as part of its registration and enrollment process, a summary of parental expectations and notification procedures related to the school’s parent and student reunification plan in the event of an evacuation (see the evacuation procedures and its parent and parent and student reunification sections in this plan).
PLAN CERTIFICATIONS

Upon request, by July 1 of each year the school shall certify to the State Superintendent that this plan has been (a) practiced at the school level; and (b) presented to and reviewed by the school’s teachers, administrators, students and guardians, local law enforcement, and public safety representatives consistent with Utah Code § 53G-4-402(18).

EDUCATIONAL SERVICES, SUPERVISION OF STUDENTS, AND BUILDING ACCESS DURING EMERGENCIES

The school will, to the extent reasonably possible, provide educational services during school hours to students whose regular school program has been disrupted by an extended emergency. The school’s ability to provide educational services will depend on the nature and extent of the emergency, including the school’s ability to locate a facility if the building has been damaged, the impact of the emergency on the school’s staff members, and the availability of other resources necessary to service students.

In the event of such an emergency, the school will provide notice to parents regarding the details of the arrangements that have been made to provide educational services.

In emergency situations where it is necessary to evacuate the school, the school will follow the evacuation procedures set forth in this plan. Teachers or other school personnel will provide reasonable care and supervision of students until students are released in accordance with this plan and the evacuation procedures. All visitors at the school will also be instructed to evacuate the school during such emergency situations.

During emergency situations, the following school personnel are entitled to possess and use keys to the school building: all faculty and staff have access to the building; only dependent on the nature of the emergency would that access be limited or changed.

In non-emergency situations, all doors to the building are generally locked. Staff may access entrance to the building at any time with electronic badges. The front door is generally locked throughout the day, except during the morning and afternoon transitions between 8:00 – 8:30am and 3:00 – 3:30pm. The time may be extended if there is an activity at the school. It is the only door that is unlocked.

TRAINING

Each year the school will provide students with emergency preparedness training appropriate to their ages. This training may include items such as evacuation, rescue techniques, first aid, safety measures for specific emergencies, and other emergency skills.

In addition, the school will designate an emergency preparedness/emergency response week prior to April 30 each year for the purpose of providing emergency preparedness or
response training, distributing current and relevant safety information, and conducting emergency related activities such as those described in R277-400-4((4)(3)).

The school will also provide annual training for staff on their roles, responsibilities and priorities under this plan.

**DRILLS**

During the school year, the school will conduct emergency drills at least once each month during school time. Fire drills will occur every other month during the school year, with the first fire drill occurring in the first 10 days of the school year. Flow tests will be done quarterly. Fire drills will be initiated by activation of the fire alarm system and will include the complete evacuation of all persons from the school building or portion of the building used for educational purposes, with the exception of staff members responsible for notifying the fire department and handling emergency communication. The school will notify the local fire department prior to each fire drill if notice is required by the local fire chief.

The school will alternate doing one of the following practices or drills in the months where no fire drills are conducted: shelter in place; earthquake; lock down or lock out for violence; bomb threat; civil disturbance; flood; hazardous materials spill; utility failure; wind or other types of severe weather; parent and student reunification; shelter and mass care for natural and technological hazards; or another emergency drill appropriate for the school’s location.

No later than October 1 each year, the school will conduct at least one annual drill for school emergencies in addition to the emergency drills described above.

The school will coordinate with local law enforcement and other public safety representatives in appropriate drills for school safety emergencies.

**FUNDS FOR EMERGENCIES**

The Principal/Director will ensure that, in the event of an emergency, all funds expended in connection with the emergency will be documented as such. The Principal/Director will coordinate with the school’s property and casualty insurer regarding the filing of any insurance claims and seeking reimbursement for losses and emergency expenditures.
SAFETY PROCEDURES

PICK-UP AND DROP-OFF PROCEDURES

NDPA TRAFFIC REMINDER

**Elementary During Drop-Off & Pick-Up:**
- DO NOT turn left into the Elementary parking lot. Layton City says drive into the neighborhood, find a safe place to turn around to turn RIGHT into school.
- NEVER park in red zones.

**Junior High During Drop-Off & Pick-Up:**
- DO NOT turn right into the middle drive.
- DO NOT turn left OUT of the middle drive.
- EXIT by right turn through the east drive only. If you need to head west, it only takes 5 minutes to drive around the block! Or you can find a safe place to make a U-turn.
- You may turn into the long drive from either direction.

DROP-OFF times Monday-Friday 8:00-8:30 AM – PICK-UP times Monday-Thursday 2:45-3:20, Friday 12:45-1:20
SAFE WALKING/BIKING PROCEDURES

The following procedures are established to help ensure the safety of students who walk or ride bikes to school.

- The school is only responsible for students while they are on school grounds.

- Parents should review their children’s walking/biking route with them and teach them to be safe.

- Some routes to school may have stretches with no sidewalk, and/or intersections with no crossing guard. Students should use caution, stay well off the street, and cross roadways only after looking both ways.

- Bikers should wear a helmet and stay to the far right side of the street.

- If possible, students should not walk or bike to and from school alone. Students should avoid talking to strangers and never approach their cars. Students should scream and run away if they feel they are in danger. They should then tell a crossing guard, another mother with kids, or a teacher or other adult at school what happened as soon as possible.

- Once on school grounds, students should walk their bike and stay on sidewalks.
SAFE ROUTES UTAH PLAN

North Davis Preparatory Academy (NDPA) grades K-4 are located at 1765 W. Hill Field Road. Grades 5-9 are located at 1591 W. Hill Field Road in Layton, UT. Most students arrive and depart in carpools or guardian vehicles. Parents and students should follow the schools designated Drop Off and Pick Off Procedures to ensure students safety and the efficiency of traffic flow through the area.

Students who decide to walk or bike to and from school should follow the safest route possible using sidewalks, crosswalks, and pedestrian trails where available. Students must obey all traffic lights, laws, signs, and signals.

There are several neighborhoods south of NDPA that are easily accessible for students to walk or bike to and from school. Neighborhoods directly south are Cold Creek Drive and Swift Creek Drive with sidewalks and residential traffic speeds. Students may walk north through the neighborhood using caution crossing streets and watching for traffic at yield and stop signs.

Students in the neighborhoods southwest of the school should follow Gentile Street east until they reach Swift Creek Drive and walk north. Students walking along the south side of Gentile Street should cross to the north side of the road at the intersection of 2200 W and Gentile.

Students in the neighborhoods southeast of the school should follow Gentile Street west until they reach Cold Creek Drive and walk north. Students walking along the south side of Gentile Street should cross to the north side of the road at the intersection of Angel Street and Gentile. Students in the neighborhoods adjacent to Angel Street should walk west to Angel Street and then north to the north side of Gentile.

Hill Field Road east of NDPA is an industrial and business route. Students do not traditionally walk or bike from this area and are not encouraged to do so since it can become a high-traffic area.

The sidewalk does not extend west of NDPA past the HOA community center and students choosing to walk west on the south side of Hill Field Road west should use extreme caution, as this is not a recommended route.

Students in the neighborhood north of NDPA can walk south on Cold Creek Way or east on Hill Field Road to the traffic light and cross at Cold Creek Way and Hill Field Road to access school grounds.

All other housing is located outside the recommended safe access route, separated by high-volume and high-speed roadways, and not recommended for pedestrian or bicycle transportation.
These routes are for the immediate area around North Davis Preparatory Academy and are not exhaustive. Parents are encouraged to walk these routes with their children to determine the safest routes. Please contact the school for additional information regarding safe traveling routes.

Area Improvements
In the future, NDPA hopes sidewalks will be added to the south side of Hill Field Road extending west. Additionally, NDPA hopes traffic calming measures will be considered in front of both the elementary and junior high buildings to slow traffic during student travel times.
VISITORS ON CAMPUS

A key aspect of school safety involves controlling who comes on the campus and what they bring with them. The school will therefore require all visitors to enter through the front entrance and sign in at the office. In the event of an emergency requiring evacuation, the front office must have an accurate accounting of everyone on the campus so they can inform first responders.

- **Authorized Visitors** register their presence with the school office, wear school-issued badges/office issued stickers, and comply with school procedures to conduct campus business.

- **Unauthorized Visitors** do not register in the office, but their presence is perceived as non-threatening. These persons, when approached, will immediately comply with visitation procedures.

- **Intruders** are unauthorized visitors who do not cooperate with school staff, who refuse to comply with visitation procedures, and whose presence is perceived as hostile or threatening to students or staff.

- **ANYONE** seen on campus without a visitor pass or volunteer badge should be asked about his or her presence. “May I help you?” is an appropriate question when greeting someone without a nametag. Parents and volunteers may politely ask about someone’s presence when they are not wearing a visitor or volunteer badge.

- If someone does not have an appropriate badge displayed, they should be directed to the front office for proper sign in.

- Parents should sign in all younger children and infants who accompany them in order to allow the office to account for everyone in the building in the event of an emergency.

- Visitors who sign in and wear a badge may become a campus “intruder” depending on their actions while on campus. Visitors should state their business when signing in. Straying from campus business can be a disruption to classroom instruction and should be avoided.

- Visitors should always sign out when leaving campus.

- Notices will be posted on all door to the school outlining the required check-in procedure for parents.
OFF CAMPUS STUDENTS

The school’s office staff will ensure that they are able to identify all students who are off campus during the school day participating in a school-related activity or excused from school for a period of time to participate in religious instruction at the request of the student’s parent. Office staff will ensure that they have contact information for the staff member responsible for the school-related activity and for the individual responsible for the religious instruction and will, to the extent practicable, notify those students in the event of an emergency at school, including a school violence emergency.
**MEDIA**

All school staff must refer media inquiries to the school spokesperson.

The Principal/Director and Law Enforcement assume responsibility for issuing public statements during an emergency.

- The Principal/Director typically serves as the school spokesperson unless he/she or the Board of Directors designates another spokesperson. If the spokesperson is unavailable, an alternate assumes responsibilities.

- The Principal/Director or his/her designee also coordinates with emergency responders.

**Primary School Spokesperson:** Ryan Robinson: (801) 547-1809 or (801) 336-3601

**Alternate School Spokespersons:** Asst. Principals
  - Ammon Campbell: (801) 336-3601
  - Tonya Andiarena: (801) 336-301
  - Misty Smith: (801) 336-3601

**During an emergency, adhere to the following procedures:**

- The Principal/Director prepares a written statement to use when responding to media inquiries.
  - Be brief and focus only on facts.
  - Respect privacy of victim(s) and family of victim(s). **Do not release names to media.**
  - Emphasize safety of students and staff first.
  - Briefly describe school's plan for responding to emergency.
  - Avoid exaggerating or sensationalizing situation.
  - Adapt statement as needed.

- Staff members who receive media inquiries should note the individual's contact information and what information they are seeking, let them know that the school spokesperson will be contacting them, and forward the information to the school spokesperson to respond.

- Establish a media information center away from school if necessary.

- Update media regularly. **Do not say "No comment".**

- Do not argue with media.

- Maintain log of all telephone inquiries.

COMMUNICATION (EMERGENCY)

When an emergency condition exists, the Principal/Director will notify personnel to respond to their area of assignment. The methods of communication listed below may be used. Notifications will be given in plain language.

- Intercom
- Hand Radio
- Telephone
- Runners
EARTHQUAKE

When an earthquake strikes:

☐ Call 911.

☐ Assume the preferred defensive position: kneeling under a desk or table while holding tightly to its legs.

☐ If it is not possible to respond in the preferred manner, an appropriate defensive position may be up against a wall or in a doorway, squatting and covering one’s head.

☐ If possible, stay away from windows.

☐ Remain in these positions until reasonably certain the quaking has stopped or until further instructions have been given from the school office.

☐ Follow evacuation procedures to evacuate the school building when it has been deemed safe and appropriate by the Principal/Director.

☐ Once outside, stay clear of building, trees, poles, and power lines.

☐ Assemble in predetermined areas and account for all students.

☐ Remain in assembly areas until situation is assessed and further directions are given.

☐ Principal/Director may move students to the secondary relocation center, the #1 Ellison Park Elementary School Parking lot or Church located on 1000 N and 2200 W. if unable to move north then south along the running trail to #2 Layton Elementary School on Gentile, if weather is inclement or building is damaged.

☐ No one may re-enter building(s) until fire or police personnel declare entire building(s) safe.

☐ Principal/Director notifies students and staff of termination of emergency.

☐ Resume normal operations.

Signal: Warning Bell and Rumbling Noises
Action: Duck and cover, evacuate the building when safe
EVACUATION

In some emergency scenarios, it may be necessary to evacuate the school.

1. Evacuation

- Principal/Director is responsible for assessing situation and issuing evacuation order.

- Principal/Director will determine whether to evacuate to primary relocation center outside of building or to secondary relocation center, alternate assembly site #1 Ellison Park Elementary School Parking lot or Church located on 1000 N and 2200 W. if unable to move north then south along the running trail to #2 Layton Elementary School on Gentile, if weather is inclement or building is damaged.

- In the event of evacuation to secondary relocation center, Principal/Director will ensure that personnel at secondary location are notified.

- Students and staff will follow standard evacuation drill procedures and route. Follow alternate route if normal route is too dangerous.

- Close all doors and windows.

- Turn off lights, electrical equipment, gas, water faucets, air conditioning and heating system.

- Place evacuation sign in window.

- Lock doors.

2. Relocation Centers

- Primary Relocation Center – away from the buildings and on the school fields.

- Secondary Relocation Center – the #1 Ellison Park Elementary School Parking lot or Church located on 1000 N and 2200 W. if unable to move north then south along the running trail to #2 Layton Elementary School on Gentile.

3. Teachers

- Direct students to follow normal evacuation drill procedures unless Principal/Director alters route.

- Take classroom roster and emergency kit.

- Close classroom doors and turn out lights.
☐ When outside building, account for all students. Inform Principal/Director immediately of missing student(s).

☐ Teachers will travel to evacuation site with their students. Take roll again upon arrival at the relocation center.

4. Parents

☐ Parents should not drive to the school if an evacuation is announced. Roads must be kept clear for emergency vehicles.

☐ In case of an emergency evacuation, students may be excused to individuals identified in the SIS. It is the parents' responsibility to keep SIS emergency contacts updated. In addition, the school may release a student who is under 15 years old only if a parent or other responsible person has been notified and assumed responsibility for the student. School personnel may release a student who is 15 years old or older without such notification if authorized by the school and the school personnel determines (a) the student is reasonably responsible; and (b) notification is not practicable.

☐ When allowed, parents will be asked to sign their children out. Parents and others allowed to pick up students should bring photo ID.

5. Parent and Student Reunification

☐ Requesting adult fills out Student Release Form, gives it to staff member, and shows identification.

☐ Staff verifies identification, pulls Emergency Card from file, and verifies that the requester is listed on the card.

☐ Staff instructs the requester to proceed to the Release Gate.

☐ Runner takes the Emergency Card with the Student Release Form to the designated classroom/location for the requested student(s).

☐ Staff files a blank card with the student’s name on it in the “out box”.

If Student Is with Class:
 ☐ Runner shows Student Release Form to the teacher

☐ Teacher marks “Sent with Runner” on the Student Release Form.

☐ If appropriate, teacher marks “First Aid” and sends parent copy of Notice of First Aid Care Form with runner.
Runner walks student(s) to Release Gate.

Runner hands paperwork to release personnel.

Release personnel match student to requester, verify proof of identification, ask requester to fill out and sign the lower portion of Student Release Form, and release student to requester.

Parents are given the Notice of First Aid Care Form, if applicable.

If Student Is Not with the Class:
- Teacher makes appropriate notation on Student Release Form: “Absent” if student was never in school that day; “First Aid” if student is in Medical Treatment area; “Missing” if student was in school but now cannot be located.

Runner takes Student Release Form to Command Post.

Command Post verifies student location if known and directs runner accordingly.

If runner is retrieving multiple students and one or more are missing, walk available students to Release Gate before returning “Missing” forms to Command Post for verification.

Parent should be notified of missing student status and escorted to crisis counselor.

If student is in first aid, parent should be escorted to Medical Treatment Area.

If student was marked absent, parent will be notified by staff member.
Main Floor
Evacuate toward stairs and out the nearest exit and to designated location.
REVERSE EVACUATION/SHELTER-IN-PLACE

Reverse evacuation/shelter-in-place provides refuge for students, staff and public within school building during an emergency. Shelters are located in areas that maximize the safety of inhabitants. Safe areas may change depending on the emergency. Be prepared to go into lockdown once inside.

- Identify safe areas in the school building.
- Principal/Director warns students and staff to assemble in safe areas. Bring all persons inside building(s).
- Teachers take class roster.

**TERRORIST EVENT**

Weapons of mass destruction likely to be employed by terrorists fall into four basic categories: Nuclear, Biological, Chemical, and Conventional. The below outlined procedures will protect students and staff should such attacks occur.

**Nuclear:**
Defense against nuclear weapons depends primarily on distance from the point of detonation. If time permits:
- Move students and staff to interior hallways or away from outside windows.
- Close all doors leading into hallways to minimize flying glass.
- All people assume the **duck, cover and hold** position on the ground.
- Shut down all utility systems to the building. (Gas and electricity are the priorities)
- Shelter in place to protect from fall out if attack is far enough away.
- Keep students and staff inside buildings. Allow parents to pick up their children at their own discretion once cleared to do so by public safety, emergency management, or military authorities.

**Biological:**
Defense against biological attacks is difficult. Awareness of an attack is usually not possible for days or weeks. The first signs may emerge as personnel notice a higher than usual incidence of various symptoms. Should an attack be discovered while in progress the school should:
- Reverse-evacuate all people into school buildings.
- Shelter in place. (Do not use basements or low lying areas)
- Close all doors and windows.
- Shut down the HVAC system. (Limit airflow from outside)
- Seal doors, windows, and vents with plastic and duct tape.
- Keep students and staff inside buildings. Allow parents to pick up their children at their own discretion once cleared to do so by public safety, emergency management, or military authorities.

**Chemical:**
- Reverse-evacuate all people into school buildings.
- Shelter in place. (Do not use basements or low lying areas)
- Close all doors and windows.
- Shut down the HVAC system. (Limit airflow from outside)
- Seal doors, windows, and vents with plastic and duct tape,
- Be prepared to treat students and staff who experience a reaction to the chemical agent.
- The decision to evacuate should be made after consulting with public safety, emergency management, or military authorities.
Conventional:
The danger from the blast effect of conventional explosive devices is similar to nuclear devices with a higher rate of survivability. If responding to the threat of an imminent blast nearby:

- Move students and staff to specifically identified basement or lower level rooms. Interior hallways may be used as an alternate.
- Close all doors leading into hallways to minimize flying glass.
- All people assume the *duck, cover, and hold* position on the ground.
- Shut down all utility systems to the building. (Gas and electricity are the priorities)
- Shelter in place to protect from fall out if attack is far enough away.
- Keep students and staff inside buildings. Allow parents to pick up their children at their own discretion once cleared to do so by public safety, emergency management or military authorities.

SAMPLE EMERGENCY LETTER TO PARENTS

Dear Parents:

If an emergency or disaster situation ever arises in our area while school is in session, we want you to be aware that the school has made preparations to respond effectively to such situations. The school has a detailed emergency plan that has been formulated to respond to such situations. Please become familiar with the school’s plan.

If we have a major disaster during school hours, your student(s) will be cared for at this school until it is safe and feasible for them to be picked up. Your cooperation is essential in any emergency.

1. Please do not telephone the school. Telephone lines may be needed for emergency communication.

2. The decision to keep students at school will be based upon what is safest for students and whether travel to and from the school is safe. If this occurs, we will notify local media. Listen to local radio or television for emergency announcements.

3. Following an emergency, students may be released to a responsible adult who has been identified by the parent or guardian in SIS. You may want to consider the following criteria when you authorize another person to pick up your child at school:

   ■ He/she is 18 years of age or older.
   ■ He/she is usually home during the day.
   ■ He/she could walk to school, if necessary.
   ■ He/she is known to your child.
   ■ He/she is both aware and able to assume this responsibility.
   ■ Because local telephone service may be disrupted, please also list an out-of-state emergency contact, since outgoing calls may still be made out of the area while incoming calls are affected.

In addition, please be aware that the school may release a student who is under 15 years old only if a parent or other responsible person has been notified and assumed responsibility for the student. School personnel may release a student who is 15 years old or older without such notification if authorized by the school and the school personnel determines (a) the student is reasonably responsible; and (b) notification is not practicable.

4. During a serious emergency, students will be released at designated reunion points located on school grounds or at the school’s secondary relocation point at site #1 Ellison Park Elementary School Parking lot or Church located on 1000 N and 2200 W. if unable to move north then south along the running trail to #2 Layton Elementary
School on Gentile, if weather is inclement or building is damaged. Please be patient and understanding with the student release process.

5. Please impress upon your children the importance of following the directions of school personnel during emergencies and instruct them to remain at school until you or a designee arrives.

Please discuss these matters with your family. Familiarity and planning ahead will help alleviate concern during emergencies. We appreciate your help in ensuring the safety of our students.

Sincerely,

**Note:** Number of teams will vary depending on size of campus.

- Assign teams based on available manpower; minimum 2 persons. Attempt to place one experienced person on each team.
- Perform visual check of outfitted team leaving Command Post (CP); include radio check. Advise teams of known injuries.
- Remain at Command Post.
- Be attentive to all S&R related communications.
- Utilize boxes above to record location of injured students. Example: report of 2 injured students in Room 20 would be recorded as “S/2 = RM 20” in box under team #3.
- Utilize manpower pool to aid S&R (i.e., request for backboard and carryout or request for rescue equipment).
